PDRL Drone Retail Outlet Chain

BhuMeet Store

PDRL Drone Retail Outlet Chain

WHAT IS BHUMEET STORE?

The future of drones, under one roof.

Discover a complete ecosystem of drone technology at BhuMeet Store. From advanced drones and essential components to software, accessories, and industry-specific solutions, we bring the latest technology together in one place. Whether you're a professional, business, entrepreneur, or drone enthusiast, explore the right tools to turn your ideas into real-world solutions

See it. Experience it. Trust it.

BhuMeet Store gives DSPs, drone entrepreneurs, and farmers the opportunity to understand and experience the technology before making a purchase. After the sale, the store becomes their local point for service, support, and technical assistance.

From purchase to after sales support — we stay with you.

The Future Takes Flight.

Drones, technology and solutions for every aerial mission

PARTNER REQUIREMENTS

What is Required to Become a BhuMeet Store Partner?

Everything you need to open and operate a BhuMeet Store from space and investment to training and agreements.

01

Retail Space

A well-located commercial retail space in a town or city, designed to attract customers, showcase innovative drone technology, and create an engaging in-store experience.

03

Initial Investment

Set up your BhuMeet Store with the right infrastructure, product portfolio, and resources to launch confidently and build a strong presence in the drone technology market.

05

Training & Certification

Store owner and staff must complete PDRL's product training, technical certification, and operational onboarding programme before launch.

02

Business Registration

Valid business registration, GST number, and required trade licenses to operate a retail and service business in your region.

04

Inventory Commitment

Commitment to stocking PDRL's authorized products including drones, components, spare parts, batteries, and accessories.

06

Partnership Agreement

Signing of the official BhuMeet Store Franchise/Dealership Agreement with PDRL defining territory, obligations, support, and incentives.

Don't just enter the drone market.

Why Partner With PDRL?

Build your place in it.

Partnering with PDRL means more than accessing products it means becoming part of a Made-in-India DroneTech ecosystem spanning hardware, software, flight technology, navigation, fleet management, and intelligent solutions.

01 Enter a Growing Market

Build a future ready business around the rapidly evolving DroneTech ecosystem.

• Drone • Software • Components • Services

02 Everything You Need, In One Ecosystem

Access drones, technology, components, software, and digital solutions all through one connected ecosystem.

03 Ready to Build Business Model

BhuMeet Store provides a platform to build a local drone technology and service business without starting the entire ecosystem from scratch.

04 Training & Hand Holding

Receive product training, technical guidance, demonstrations, and ongoing support to help you confidently operate and grow your business.

05 Technology + Business Support

Leverage PDRL's technology, product resources, software platforms, and operational expertise to strengthen your local market presence.

06 Build & Scale with the BhuMeet Network

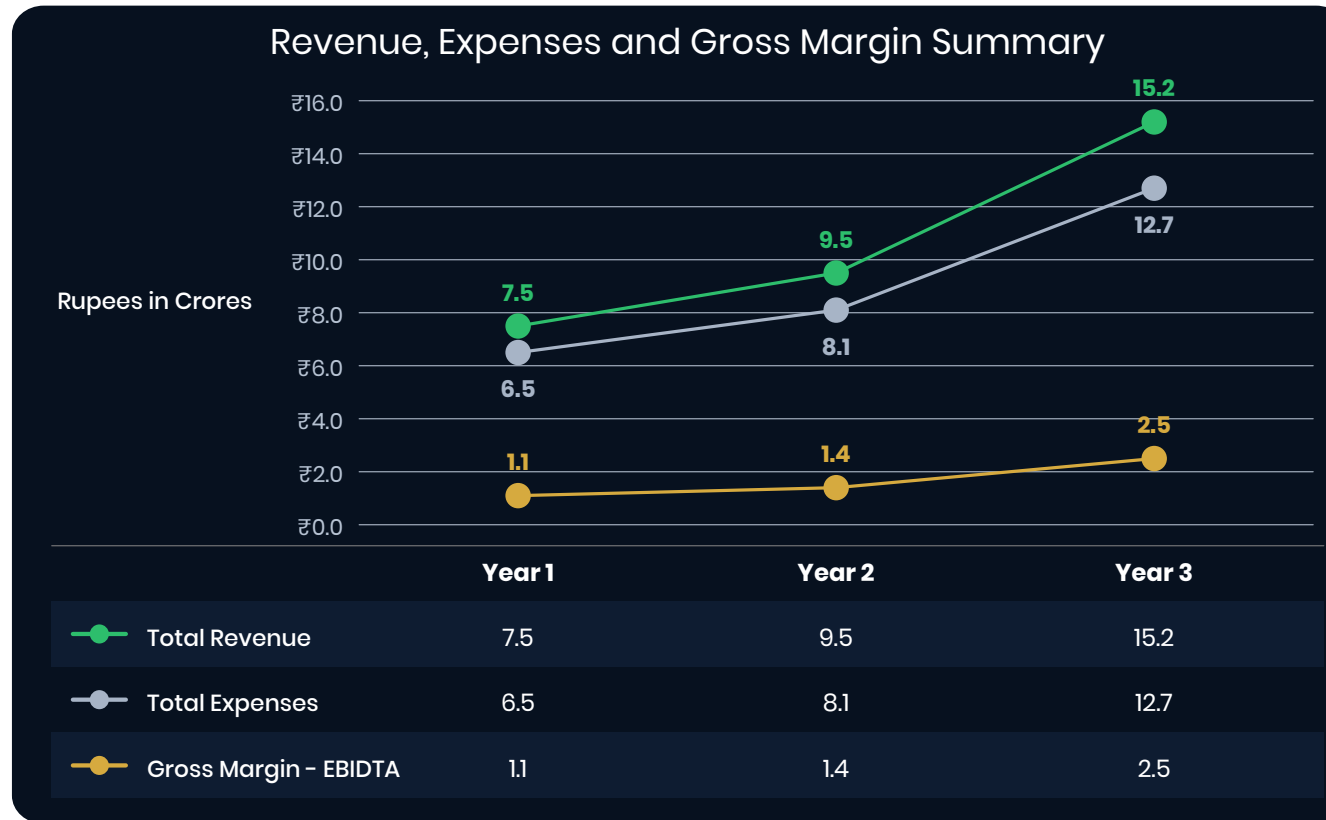

Join the BhuMeet network and connect with PDRL, stores, service providers, businesses, and end users to unlock new opportunities across the DroneTech ecosystem

07 High Profit & Sustainable Business

Build a business around a technology that is transforming industries and creating new opportunities. From individuals and businesses seeking reliable drone solutions to DSPs and OEMs looking to expand their reach.

Business Model

With an initial investment of **Rs 27 lakh** and working capital for operations following revenue and margins are projected.

MULTIPLE WAYS TO GROW

One Store. Multiple Revenue Opportunities.

BhuMeet Store is more than a drone retail outlet it is a complete drone technology ecosystem designed to help partners build and grow their business. As a BhuMeet Store Partner, you can explore multiple opportunities across the drone industry, including:

01 Drones & Technology

Explore a wide range of drones and advanced technology solutions.

02 AI Software Solutions

Offer intelligent software, fleet management, navigation, and digital platforms.

03 Parts & Components

Access essential electronics, hardware, batteries, accessories, and replacement components.

04 Services & Support

Create recurring opportunities through training, maintenance, repairs, upgrades, and technical support.
